## Handbuch der Schweizer Privatanzsachen 2. Auflage (deutsch)

(Handbook of Swiss PTPO\* postal stationery)

During the past four years, namely since the first publication, many things have changed. The most relevant improvements are:

1,292 newly discovered PTPO postal stationery items have been incorporated in the handbook's catalogue part

Each type of PTPO postal stationery is documented with illustrations and explanations

A new list of the PTPO clients with references to the postal stationery items they had submitted for imprinting with indicia

In the catalogue part, many lines are complemented with symbols and explanations

New chapters on "Counsel to newcomers" and on "Various aspects for collectors"

All prices for unused and cancelled PTPO postal stationery items have been revised

Compared to the first publication, 119 new pages have been added. Taking into account the discontinuation of 28 pages containing French and English introductions in this new German edition, the real increase represents 147 pages.

A French version is in preparation and will be issued during the summer months of 2022. An English edition could be possible, if enough interest is manifested. Send your comments to the editor.

The new handbook conveys a lot of knowledge on Swiss PTPO postal stationery and offers an up-to-date catalogue, reflecting the actual market situation.

*\*) Abbreviation for "Printed-to-private-order"*

The new issue contains:

50 pages introducing the field of Swiss PTPO postal stationery

29 index-pages on Swiss PTPO postal stationery indicia with their catalogue numbers

69 index-pages on PTPO clients with references to their postal stationery items containing indicia imprints

362 pages of catalogue entries with the number of the PTPO stationery items and the name of the PTPO client, revised prices, and often symbols and additional information

28 pages of the annex containing tables on abbreviations, symbols and postal tariffs, as well as the relevant directives of the Swiss Postal Administration.

The book comes in hard cover DIN A4 format with 540 coloured pages permanently sewn into the binding. There are so many fundamental changes as compared with the first edition, making this 2<sup>nd</sup> edition indispensable to collectors, philatelists, jurors, auctioneers and dealers.
